Paris Declaration of the Coalition of the Willing

Paris • 6 January 2026

Paris Declaration - Robust Security Guarantees for a Solid and Lasting Peace in Ukraine

The members of the Coalition of the Willing, Ukraine and the United States have convened today in Paris.

We all stressed our commitment to a just and lasting peace in Ukraine in line with the United Nations Charter principles, and welcomed the progress achieved, including in the discussions between the Americans, the Ukrainians, European and other partners.

In particular, the Coalition was clear that Ukraine's ability to defend itself is critically important for ensuring the future of Ukraine's and Euro-Atlantic collective security. We confirmed that ensuring the sovereignty and lasting security of Ukraine shall be an integral part of a peace agreement, and that any settlement will have to be backed up by robust security guarantees for Ukraine.

We stand ready to commit to a system of politically and legally binding guarantees that will be activated once a ceasefire enters into force, in addition to bilateral security agreements and in accordance with our respective legal and constitutional arrangements.

They will include the following components :

- Participation in a proposed US-led ceasefire monitoring and verification mechanism. There will be a continuous, reliable ceasefire monitoring system, including contributions from members of the Coalition of the Willing. The Coalition of the Willing will also be represented in the Special Commission that will be established to address any breaches, attribute responsibility, and determine remedies.

- Support for the Armed Forces of Ukraine : The Coalition agreed to continue critical long term military assistance and armament to the Armed Forces of Ukraine to ensure their sustained capability, as they will remain the first line of defence and deterrence. This will include but not be limited to: long term defence packages; support for financing the purchase of weapons; continued cooperation with Ukraine on its national budget to finance the armed forces; access to defence depots which can deliver rapid additional support in the case of a future armed

attack; provision of practical and technical support to Ukraine in building defensive fortifications.

- A Multinational Force for Ukraine made up from contributions from willing nations within the framework of the Coalition, to support the rebuilding of Ukraine's armed forces and support deterrence. Coordinated military planning has been conducted to prepare for reassurance measures in the air, at sea and on land and for the regeneration of the armed forces of Ukraine. We confirmed that these reassurance measures should be strictly implemented at Ukraine's request once a credible cessation of hostilities has taken place. These elements will be European-led, with the involvement also of non-European members of the Coalition, and the proposed support of the US.

- Binding commitments to support Ukraine in the case of a future armed attack by Russia in order to restore peace. We agreed to finalise binding commitments setting out our approach to support Ukraine and to restore peace and security in the case of a future armed attack by Russia. These commitments may include the use of military capabilities, intelligence and logistical support, diplomatic initiatives, adoption of additional sanctions.

- Commitment to deepen long-term defence cooperation with Ukraine. We agreed we would continue to develop and deepen mutually beneficial defence cooperation with Ukraine, inter alia: training, defence industrial joint production, including with the use of European relevant instruments, and intelligence cooperation.

We have further decided to establish a US/Ukraine/Coalition coordination cell at the Coalition Operational Headquarters in Paris.
